APPLICATION FOR THE INDUSTRIAL TRAINING (IT) PLACEMENT

Dear Sir/Ma,

I am writing to respectfully request an opportunity to undertake my industrial training (IT) with your esteemed organization.

I recently completed a **Four-month Web Development Programme at Melodia Academy (Front-End)**, Where I receive practical training in web development and built a strong foundation in **HTML, CSS, basic JavaScript, and Microsoft Excel**. During the programme, I worked on practical web development projects that enhanced my technical, problem-solving, and creative skills.

I have a strong interest in website development and am eager to gain practical experience in a professional environment where I can apply my knowledge and skills I have acquired while continuing to grow under the guidance of experienced professionals, I am enthusiastic about learning, contributing positively to your organization, and developing into a competent software professional.

I am a dedicated, hardworking, and quick learner who is committed to personal and professional growth. I believe that completing my industrial training with your organization will provide valuable exposure to industrial practices and help me build the skills needed for a successful career in technology.

I would be grateful for the opportunity to undertake my industrial training with your organization and look forward to your favorable response.

Thank you for your time and consideration.

Yours faithfully,

IBEBUIKE DANIEL CHIDALU
